

Name: Jamie Buckley

Placed As: Retailer Marketing Consultant

Company: Volvo Car UK / Grey London

How did you first come to work with Copeland?

I've known Julia and Copeland since they placed me in a marketing role back in 2013. Over the years, Copeland have always been at the top of their game, and my first port of call when it comes to job search.

What career goals were you trying to achieve?

I wanted to get my teeth back into a premium automotive brand. With 20 years' experience and a huge passion for automotive, I wanted a role that allowed me to spread that passion and inspire others.

What have been the benefits of working with Copeland?

Your knowledge of the industry, expertise and contacts. Always really efficient and super friendly. I have successfully been placed twice.

What's it like working with Copeland?

I have always loved Copeland's no-nonsense approach and honesty. There are so many recruitment agencies out there who pick you up and drop you like a stone. Copeland treat you like a person; they get to know you like a friend; they know what motivates you and above all they know exactly how you can fit into an organisation.

Copeland have always been at the top of their game, and my first port of call when it comes to job search.

- Jamie Buckley, placed as Retailer Marketing Consultant, Volvo Car UK / Grey London
