

Company: FISITA

Business Area: Membership Organisation

Position Filled: Technical Manager

Provided by: Chris Mason, CEO

Background

FISITA is the international membership organisation that supports the automotive and mobility systems sector in its quest to advance technological development. They promote excellence in mobility engineering and the development of safe, sustainable and affordable mobility solutions.

FISITA's Challenge

Searching for an individual with technical experience who was able to move to a thought leadership role within our international membership community.

Why did you choose to work with Copeland?

I had some previous knowledge of Copeland and was looking to work with a leading company on a specific project so it was a long term awareness that led to the initial discussion.

What were the benefits of working with Copeland?

Julia made the process very efficient, her understanding and determination to deliver a positive outcome for us was a great experience

How closely did Copeland's candidates fit your brief?

I was provided with an excellent shortlist, from which I held initial discussions with four outstanding candidates, all were very well aligned with my expectation.

What's it like to work with Copeland?

Julia is a pleasure to work with, just a great professional in every regard.

I was provided with an excellent shortlist, from which I held initial discussions with four outstanding candidates, all were very well aligned with my expectation

Chris Mason, CEO, FISITA
